

### REMARKS

Claim 40 has been amended for further prosecution.

In particular,  $R_1$  and  $R_2$  have been amended to remove  $(C_3-C_8)$ cycloalkyl from the definition,  $Q$  is as defined in original claim 10,  $R_3$  and  $R_8$  are as defined in original claim 5, and  $R_4$  is defined as H, as shown in all of the illustrative example.

$R_8$  and  $R_9$  together are defined in view of the illustrative examples 48, 61 and 65.

The definition of "m" has been removed as it no longer appears in the definition of "Q."

When  $p$  is 2, 3 or 4,  $R_9$  is defined as other than hydrogen, and further each said  $R_9$  may be the same or different.

$R_{10}$ ,  $R_{11}$  and  $R_{12}$  are defined as in original claim 22.

In addition, claims 42 and 45 were canceled as duplicative of amended claim 40, and claims 44 and 48 were amended to delete the definition of  $R_4$  as hydrogen as duplicative of claim 40.

In claim 56, the compounds of Examples 9 and 10 were added, and the compound of claim 21 was deleted as not being within the scope of claim 40.

New claim 59 relates to the compound of Example 21.

Respectfully submitted,
